The Board may then grant a contribution to the Village Panchayets concerned".

They have also offered free a very good site for the same and are prepared to provide accommodation for opening a Dispensary at once, and for the staff. The place has suffered much on account of outbreaks of plague. The village is a very populous one and is situated midway between Konanur and Kerlapura. A Dispensary at this place serves a large number of interior villages of the Arkalgud and Hole-Narsipur Taluks. The District Board may agree to bear their quota of initial and recurring expenditure for the institution."

"The District Board may pay their quota of contribution for the acquisition of the land required for the extension, half the cost may be borne by Government and the other half distributed in equal shares between the District Board and Arsikere Municipality.

As regards the initial and recurring expenses the District Board may pay half the other half being borne by the Arsikere Municipality. But as the District Board is already paying in full for a Midwife only one more Midwife may be entertained. the cost of this second Midwife being borne in full by the Arsikere Municipality."

Resolution.—Standing Committee's resolution is approved. Only four beds will be sufficient for the present for the Maternity.

The Board however wish to point out once again that the site of the present Local Fund Dispensary is not well suited for the Maternity on account of its being too close to a busy thoroughfare and the railway line of an important junction station. It may be noted that at Robertsonpet, it is understood that in a similar matter it was considered necessary either to divert the road or construct an operation theatre elsewhere.

It is desirable to select a suitable site in the Hassan side or Banawar side or some other locality nearby.

The Senior Surgeon was consulted today (22nd January 1928) and the question discussed. He is of opinion that the Local Fund Dispensary and the Maternity Hospital should be in one and the same place. He also considers that the site of the present Local Fund Dispensary is not so well suited for in-patients an account of the disturbance caused in the neighbourhood being an important railway junction and commercial place, almost amounting to a nuisance. The Board suggest that the existing Local Fund Dispensary building which is of a very old type may be sold or otherwise disposed of and a new building constructed for the Local Fund Dispensary and the Female Dispensary and Maternity in the Banawar road or, Harnahalli road or in uther suitable locality, and the Senior Surgeon also agrees with this view. The District Board will agree to bear their quota of cost for the construction of such a building. The Municipality and Government may be requested to ber their quota of cost for a new building. The realisations from the sale of the old Local Fund Dispensary building may go towards meeting the cost of the new building.

15. District Medical Officer's No. 2053, dated 7th December 1927, forwarding extract from the Senior Surgeon's inspectection notes *re* : constructing a New Local Fund Dispensary at Banawar.

Resolution of the standing committee—

"If the Banawar Municipality and Government would be willing to pay their quota of cost for a building the District Board may then pay its quota of cost also for a building for the Dispensary. It is not possible for the District Board at present to pay any quota for quarters for the staff".

Resolution.—Resolution of the standing committee is approved.

The building now used for the dispensary may be converted into quarters for the Medical Officer with suitable alterations.

Note.—The Senior Surgeon says that it is not possible to convert the existing Dispensary building to quarters for Sub-Assistant Surgeon in view of the age of the structure and the other office located in the same premises. Hence the Board agree to pay their quota of cost *i.e.*, one-third for quarters for Sub-Assistant Surgeon, (22nd January 1928).

16. Deputy Commissioner's No. 1745-26, dated 17th November 1927, forwarding copy of letter addressed to the Senior Surgeon *re*: opening of a Dispensary at Palya and calling for the opinion of the Board in the matter.

Resolution of the standing committee—

"The entire correspondence including Senior Surgeon's letter G. C. 571-10, dated 18th August 1927, was read.

Palya is a Malnad centre and a M. I. Dispensary here is very necessary. The collections at Ballu are not intended for the Palya Dispensary at all. The District Board cannot bear any portion of the cost for the dispensary at Palya which must be met out of M. I. funds. But they may make the musafirkhana available for the L. F. Dispensary.

As regards Bagur, the District Board may bear the share of initial and recurring expenditure on the scale proposed by the Senior Surgeon".

Resolution.—standing committee's resolution is approved.

But it is intimated that out of the six Dispensaries sanctioned by Government for this district, only two will be opened this year, and those at Halli-Mysore and other places will have to wait for subsequent years. Resolution.—The Board while gratefully appreciating the generous intention of the donor regretfully find it impossible to open a Female Dispensary with lying-in-ward at Grama, while five Taluk Headquarters themselves have no Women's Dispensaries or Women Medical Officers. Agreeing however with the Rao Bahadur's views about increasing the institutions for women, the Board would be prepared to accept the offer and name the institution after the Rao Bahadur if he would kindly construct a suitable building at Arsikere instead of at Grama as the need there is very great.

These conversions are conditional on the transfer of Malnad Improvement Dispensaries as proposed within the district.

Further, it is resolved that the Nagenahalli people may be informed that they have uot fulfilled their repeated promises to provide buildings for the Hospital though on their representation even an offer of Rs. 4,000 in cash was declined and that if before the monsoon of 1928, they do not provide the building steps will be taken to transfer the institution to some other place where better facilities may be available.

As regards Ballu Mr. A. V. Nanjundasetti strongly urges that a Dispensary may be started at Ballu and states that the Ballu people are willing to construct type design buildings for the Dispensary and provide free quarters for the Sub-Assistant Surgeon. Compounder and Midwife.
